NHS Trust

TRUST BOARD
28th October 2010

TITLE	**Compliance Framework and Trust Operational Performance**
EXECUTIVE SUMMARY	This paper reports on the Trust's performance against the Monitor Compliance Framework and other key service performance targets.
BOARD ASSURANCE (Risk) / IMPLICATIONS	Compliance is reflected in the Board Assurance Framework. BAF Risk 1.1 National targets and priorities.
STAKEHOLDER / PATIENT IMPACT AND VIEWS	Patient expectations in terms of access are reflected in NHS performance targets.
EQUALITY AND DIVERSITY ISSUES	The Trust Operational Performance Report includes data quality on ethnic groups.
LEGAL ISSUES	Compliance with performance standards set by the regulator is part of the requirement for the authorisation of Foundation Trusts.
The Trust Board is asked to:	Note the report.
Submitted by:	Valerie Howell, Deputy Chief Executive
Date:	21st October 2010
Decision:	For noting

TRUST BOARD
28th October 2010

OPERATIONAL PERFORMANCE

1 Introduction

From April 2010 the Trust has re-focused its balanced scorecard on its four strategic objectives, in order to enable the Board to track progress against its key objectives. Service Performance (including performance against the Monitor Compliance Framework) is now reported separately. This report therefore focuses on:

- Performance against the Monitor Compliance Framework.
- Performance against key targets in the Annual Health check.
- Performance against Better Care, Better Value.
- Performance against key metrics set out in the Trust's contract with NHS Surrey.

The report focuses on exceptions, and actions to address these.

2 Performance Exceptions and Action Plans

2.1 Monitor Compliance Framework

The Trust continues to score amber green against the Monitor Compliance Framework for August 2010. This is a continued strong performance. Performance against the majority of key targets has now been stable for many months.

Two issues drive the current amber green rating:

1. MRSA performance against trajectory. The Trust is over its MRSA trajectory year to date and this bears a significant weighting in the Compliance Framework. The root causes for MRSAs and actions being taken to address this level of performance have been reported on separately in the quality report. These have confirmed that the Trust's systems and processes for tackling healthcare acquired infections are strong, and this has been confirmed following a review by NHS Surrey.

2. MRSA elective screening. The Trust continues to show a steady improvement against this target. Performance of 99.7% for September represents all bar one of the target patient group being screened. Any breach against the target is reviewed with the relevant clinical team with clear actions agreed to improve performance.

2.2 Local Trust Specified Targets

A & E performance at St. Peter's site.

The Trust has confirmed its commitment to sustaining the standard of 98% of patients presenting through A & E being seen within 4 hours. This continues to present a challenge to the St Peter's A & E department, although performance within paediatric A & E is very strong.

The pressures experienced within the Department reflect the pressure across the broader system within Surrey.

The Trust continues to take action to improve performance. Areas of current focus

and action include:

- Securing more consistent middle grade support
- Improvements to capacity management within the Trust, with daily capacity meetings more grounded in predictive data.
- Improving discharge practice and senior presence on all wards

3 Conclusion

The Trust's performance against its operational targets remains strong and sustainable. Continued vigilance in terms of healthcare acquired infections is required and continued work on the issue of A&E performance is also required.
