CODE OF CONDUCT FOR GOVERNORS

1. Introduction

The formal duties and responsibilities of Governors are set out in the Ashford & St. Peters Hospitals NHS Foundation Trust (ASPH) Constitution and Standing Orders for the Council of Governors. The purpose of this document is to set out the standards of behaviour and conduct that are required of Governors, in order that the Council of Governors can operate successfully and efficiently in supporting ASPH.

Governors must at all times comply with the Constitution, ASPH's Licence, this Code of Conduct and any other guidance or directions issued by NHS Improvement, the sector regulator for health services in England. As a member representative dealing with sometimes confidential and difficult issues, Governors need to act with discretion and care in the performance of their role. Governors must maintain confidentiality with regard to information gained through their involvement in the hospitals.

All Governors must agree to sign and deliver to the Membership and Engagement Manager a statement in the form required by the Council of Governors confirming acceptance of the Trust's Code of Conduct.

2. Qualifications for office

Governors must continue to comply with the qualifications required to hold elected office throughout the period of their tenure. The Membership and Engagement Manager should be advised of any changes in circumstances which disqualify the Governor from continuing in office in accordance with the provisions of the Constitution.

All Governors will need to have been DBS checked as part of their appointment.

One of the key objectives of the Council is to promote social inclusion throughout its work and all Governors will be expected to understand, agree and promote the Trust's approach to diversity. The development and delivery of initiatives should not prejudice any part of the community on the grounds of race, disability, marital status, sexual orientation or religious belief. The promotion of any personal or political view that undermines this prime objective is grounds for disqualification from the Council.

3. Confidentiality

Governors have a duty to respect the confidentiality of Trust patients and staff and the information they are exposed to as a result of their membership of the Council.

4. Conflict of Interests

The Council has a legal obligation to act in the best interests of the Trust and in accordance with the Trust's Constitution and Licence and to avoid situations where there may be a potential, real or perceived, conflict of interest. Governors should not use the position for personal advantage or

seek to gain preferable treatment in any way. Governors should declare any conflicts of interests which may arise and should not vote on such matters. If in any doubt you should seek advice from the Membership and Engagement Manager. It is important that conflicts of interest are identified and declared to protect the interests of the Trust and all individuals concerned.

Upon appointment, and at least annually, Governors are asked to complete a declaration of interest form. This document must also be updated where a material change occurs. A Register of Interests will be maintained by the Membership and Engagement Manager, and will be made available to the public.

5. Council meetings

Governors have a responsibility to attend meetings of the Council; this is a formal part of the Constitution and Standing Orders. When this is not possible you should let the Membership and Engagement Manager know in advance of the meeting.

Governors may not nominate a deputy or any other person to substitute for him/her in the event of not being able to attend a meeting.

Governors are expected to attend for the whole of the meeting and should make every effort to prepare for the meeting by reading papers.

In order to help everyone to take part, it is really important that all Governors respect the points of view of others and understand that conduct likely to give offence will not be tolerated. The Chair will reserve the right to ask any Governor who fails to observe the Code to leave the meeting.

6. Personal Conduct

Governors are asked to adhere to the highest standards of conduct in the performance of their duties. In respect of your interaction with others, you need to:

- adhere to good practice in respect of the conduct of meetings and respect the views of your fellow Governors. This will include basic disciplines like not using mobiles in meetings, listening to all points of view and valuing everyone's contribution.
- be mindful of conduct which could be deemed to be unfair or discriminatory. Inappropriate behaviour such as the use of foul language, racist or sexist remarks would render a Governor liable to disqualification
- treat the Board members, other employees and fellow members with respect and in accordance with Trust values.
- recognise that Council and Management have a common purpose in the achieving the success of the Trust
- Governors should conduct themselves in such a manner as to reflect positively on the Trust. When attending external meetings or any other events at which they are present, it is important for members to act as ambassadors for the Trust.

7. Training and Development

Training and development is essential for Governors in respect of their effective performance of their legal duties and responsibilities. Governors are expected to participate in the training and development offered by the Trust, certain elements of which are mandatory, such as infection control.

8. Visits to Trust Premises

Where Governors wish to visit Trust premises in a formal capacity as opposed to as individuals in a personal capacity, they should liaise with the Membership and Engagement Manager to make the necessary arrangements in advance. Sensitivity should be paid to the needs of patients and staff undertaking clinical duties.

Control of infection is an absolute priority within the Trust. When visiting clinical areas Governors must ensure they conform to requirements in respect of Infection Control including hand hygiene and dress code.

9. Non-compliance with the Code of Conduct

The Code of Conduct affects all activities of Governors and compliance of the code is incorporated within the requirements of the Standing Orders.

10. Reporting of breaches of the Code of Conduct

All Governors have a duty to report suspected breaches of this Code of Conduct to the Membership and Engagement Manager or Chairman of the Council of Governors.

11. Interpretation of the Code

Should there be any dispute between the Council of Governors as to the interpretation of the provisions of this Code the Board of Directors shall determine the matter.

12. Changes to the Code of Conduct

The Code of Conduct will be reviewed on a regular basis by the Council of Governors and changes to this Code may be recommended by the Council of Governors but the Code may be altered only with the approval of the Board of Directors. Changes may not be made, which would make this Code inconsistent with the provisions of the Constitution.
